What a great opportunity! The tiny home is surprisingly large with a bedroom on the main level and a loft bedroom at either end. The home was built in 2017 & has a lot of thought put into the layout and design with high vaulted ceilings, plenty of windows and high end appliances. It just feels 'right'. There is a shower inside, but you'll probably choose the outdoor tub whenever possible and with a tankless water on demand, you'll never run out of hot water. Gas stove, Fisher Paykel dishwasher, Blomberg washer/dryer and a full size fridge round out the appliance list. Outside there are two detached buildings. One is currently used for storage and the other would be great for overflow guests or make it an office. Both have power. But the real beauty is the custom fire pit built to the owners exact standards, sunken down and surrounded by rock... it's an oasis all on it's own! The property is well treed, fenced, very private and a 5 minute drive to the village. All measurements are considered approximate and should be verified if important. (id:13505)
